En effet, eu égard aux difficultés familiales

# STOCKHOLM FOCUSES ON 2007

## ITTF World Individual Championships May 7-13 2007 in Stockholm, Sweden

"Just looking at the shape of the Globe, makes me want to compete"  
J-O Waldner

### We believe in the future...

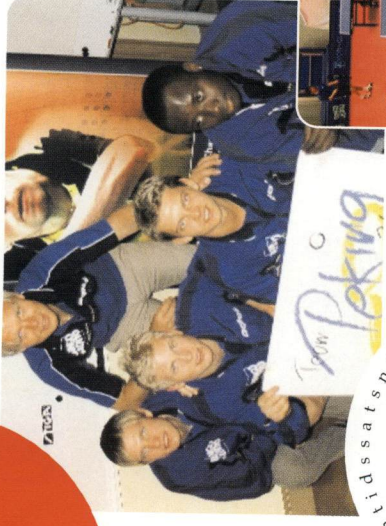

One of the main reasons why the Swedish Tennis Association bids for the WTTC 2007 is our belief in the future for Swedish table tennis.

We have had one of the best teams in the world for many, many years, with of course the shining star Jan-Ove Waldner in top. We are still quite good with five male players ranked among the top 50 in the world. We had three players in the ITTF Pro Tour final in December 2003. Jens Lundquist took an impressive third place.

But we need goals and exciting challenges, a WTTC would be both. Something to gather the table tennis population in Sweden for – a real challenge!

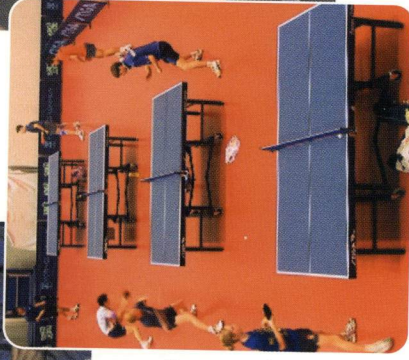

It would also give the next generation of players a possibility to take part in a WTTC on home ground – an exciting challenge and a tempting goal!

Together with the Swedish Olympic Committee and our sponsor STIGA we have just launched "Team Peking" – four young players will have a lot

Peter Karlsson and Jens Lundquist two very good players in our national team.

The four players of "Team Peking" Robert Svensson, John Axelqvist, Pär Gerell and Cyprian Asamoah with their coach Thomas von Scheele.

The Swedish national Training Center in Köping, an important part for the future of the STTA.

of extra support and possibilities towards the Olympic Games in Peking (Beijing) 2008. And hopefully, they will get a serious test during the WTTC 2007.

It is also our hope that the Swedish National Training Center in Köping (150 km from Stockholm) established in August 2002 will be a great help not only for young promising male and female players from Sweden, but also to a lot of players from abroad.

The Center is offering the very best international

high quality training. During the first year 20 countries and more than 300 foreign players visited the Center.

22 students take part in daily practice apart from their normal studies at school. As we mentioned in our first Newsletter we have two main options for the Swedish table tennis: One is to form a new generation of top players after Waldner and Persson.

The other option is to be elected as the host for the WTTC 2007.

A few years ago the Stockholm Table Tennis Association. Tried to set a new world record in "Round the table". They nearly succeeded!

This proves that you can play table tennis more or less everywhere. An excellent performance by Jan-Ove Waldner and Jörgen Persson at stockholms most famous shopping mall NK.

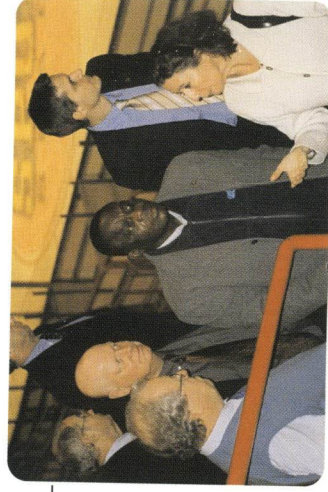

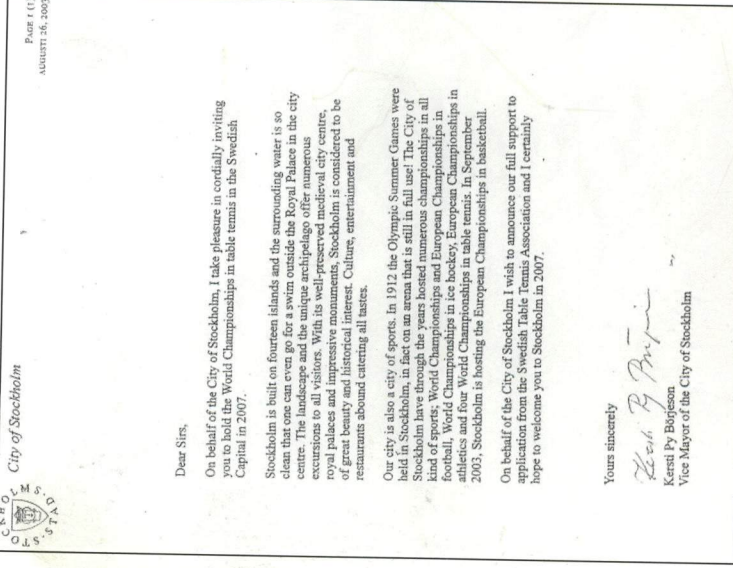

## The one minute concept

We have named our bid "One Minute Concept" because within the board of STTA, when we decided to bid for a WTTC in Sweden, we all agreed on one very important condition - NEARNESS!

Therefore our choice of Stockholm feel so right - with the fantastic Globe Arenas close to the city centre, close to hotels, excellent communications, etc.

We think it is of great value for a WTTC if we can minimize the time between hotel and venue, between playing halls and practice hall, between hotel/venue and congress centre etc. We are convinced that "One Minute Concept" is the most suitable name for our bid and we hope you will appreciate our efforts and support our request for the WTTC 2007.

The ITTF inspection were performed by Geroge Segun and Claude Bergeret, hopefully to their satisfaction.

Dear Sirs,  
On behalf of the City of Stockholm I wish to announce our full support to the Swedish Table Tennis Association in their application to arrange the World Championship in May 2007.

Sweden has through the years had quite a list of success in table tennis and it would be a great honour for our town to see you here in 2007. The spring in Stockholm is fantastic! The nights are short, the water is pure, the green is beautifully green. Maybe you could have time for an excursion among the 25 000 islands of the Stockholm archipelago?

There is no doubt in our minds that Stockholm will prove to measure up to your most demanding expectations and we sincerely hope that you will allow our city the privilege and pleasure of hosting the World Championship in table tennis in 2007.

Harry Ahlström

The support from The City of Stockholm is total. As we shown you in our first Newsletter we also have a great support from The Prime Minister of Sweden.

The nearness of the Globe main arena and Hovet second playing hall, is easy to understand when you see the indoor passage between the arenas.
