RAPPORT DE REUNION

PROJET: Projet Santé Reproductive des Adolescents/ MIJESPOC

Lieu et Date : Le 28 / 10 / 2005 , bureau du Ministère de la Santé, Kigali.

Soumis par : Dr BWITO Paul, Gestionnaire Technique

Brève introduction :

Dans le cadre d'informer, éduquer et communiquer ce qui concerne la santé de la reproduction aux jeunes rwandais, GTZ et PSI ont imprimé deux livrets à leur intention.

Néanmoins, la commission formée par les représentants du MINEDUC ,du MINISANTE , de la PRIMATURE et du MIJESPOC, a constaté que quelques propos sont à supprimer, sinon à modifier. Les deux livrets ont été conçus en Tanzanie, conformément à la culture Tanzanienne. En outre, le bureau de NEPAD a contribué pour la santé de la reproduction des jeunes en faisant un CDR qui montre les organes génitaux du sexe féminin et du sexe masculin.

Objectifs de la réunion :

- Approuver le contenu des livrets pour enfin les distribuer dans les écoles.
- Adapter le contenu des deux livrets au contexte socioculturel de notre pays
- Approuver le CDR de NEPAD pour être distribué dans les écoles.

Principales contraintes :

- Certains écrits ne sont pas appropriés à la culture rwandaise ;
- Certains propos stimulent l'instinct sexuel du lecteur.
- Le contenu des deux livrets est probablement le reflet de la culture Tanzanienne et pas nécessairement de la culture Rwandaise.

LES RESULTATS

Problèmes.

- Non insistance sur des sujets intéressant réellement la santé de la reproduction tels que :
 - ❖ Enseignement sur les IST, y compris le VIH/SIDA ,
 - ❖ Grossesses non désirées et leurs risques,
 - ❖ Avortements et leurs risques
 - ❖ La prise des drogues
- Manque de computers pour pouvoir suivre les CDR au niveau des écoles.
- Destruction de la culture Rwandaise par des propos mal choisis.

RECOMMANDATIONS

- Définir les objectifs des deux livrets : quels problèmes auxquels ils s'attaquent ?
- Respecter les valeurs socioculturelles du peuple Rwandais en supprimant les termes non appropriés ;
- Insister sur l'abstinence plus que sur les préservatifs ;
- Encourager la jeunesse à faire le premier acte sexuel lors du mariage ;
- Dégager du contenu des deux livrets une leçon de morale pour montrer aux jeunes que le vagabondage sexuel est un péché ;
- Que le CDR soit un matériel didactique pour les enseignants des sciences ;
- Equiper les écoles en computers pour pouvoir utiliser les CDR.
