## Remembering Rwanda 1994-2004

This is a part of a series of events to commemorate the 10th anniversary of the Rwandan Genocide. Between April and July 1994, the Rwandan genocide saw the slaughter of close to one million Rwandan men, women and children and the exodus of hundreds of thousands more to neighboring countries. This event is being remembered in honor of those who died, and in the belief of the sponsoring organizations that only by understanding what happened in Rwanda in 1994 can the international community seek to prevent it happening again, in Rwanda or any other part of the world.
